

Shenandoah Valley Environmental Educator Training Workshop
March 29, 2007
Massanetta Springs, Harrisonburg VA
9:00 AM - 3:30 PM

"Bringing the outdoors to classrooms near you!" A day of hands-on, fun, educational activities any educator can take back with them to share with different audiences....

The Virginia Association of Soil and Water Conservation Districts Education Committee and the Shenandoah Valley Soil and Water Conservation District will provide a training workshop for Teachers and Non-Formal Environmental Educators.

This FREE one day workshop is for those that provide environmental education programs to teachers, students or scouts. This workshop will focus on providing hands-on learning activities and resource materials to participants.

Sessions include:

- "Stream the Movie" (learn how to transition your classroom and students into a functional stream with this skit)
- Education Activities with Sandy Greene, Headwaters SWCD
- Training in the New PLT "Places We Live" Module
- Your Ecological Footprint & The Virginia Naturally Program
- Pollution Solution activities on litter and pollution
- Your Backyard Classroom Mountain Edition
- Make and Take Session
